SUMMARY

Full Stack Web Developer with a background in hospitality. An avid learner and excited about all things computer science related, specifically react and UI/UX development. Able to bring empathy and light-hearted humor to every situation no matter the level of stress, while also knowing when to buckle down and get things done to finish a sprint. Graduated from a Full Stack Web Development BootCamp in the fall of 2020 with flying colors.

TECHNICAL SKILLS

Languages: HTML, CSS, JAVASCRIPT, PYTHON, MYSQL, PHP

Applications: Node.js, Express, MongoDB, React, JQuery, Handlebars, TailwindCSS, Bulma, Bootstrap, APIs, PWA, cPanel

PROJECTS

“Club Scorpio” | <https://github.com/hunterwk/clubscorpio> | www.avcdoman.com

- A resource for booking a tattoo from an amazing tattoo artist
- Used tailwindCSS to build with emphasis on mobile first development
- Used php to submit contact form to email hosted using cPanel

Newb Jobs | <https://github.com/dohmr/up2U> | <https://dohmr.github.io/up2U/>

- A short listing of remote job opportunities and related articles to their requirements
- Used Bulma to design the UI around their grid system
- Utilized a lot of jquery to perform efficient ajax calls

HedgeNight | <https://github.com/git99-src/hedgenight>

- A time management application for freelance workers and students.
- Authored all the core functionality for the program and designed the front end.
- Project was based in React and utilized MongoDB
